**Extensions / Features**

- Longitudinal hemming
- Cross cutting
- Automatic width adjustment
- Tablet control and connectivity

mammut MPS 250
AUTOMATIC MATTRESS-HEMMING MACHINE
MAMMUT MPS 250 combines highest quality and safety to an efficient production line

The automatic hemming machine MAMMUT MPS 250 together with a mammut multi-needle quilter comprises an efficient production line for hemmed mattress panels or quilts. An automatic panel stacker is a useful tool in combination with the other aforementioned machines.

The illustration shows MAMMUT MPS 250 with optional equipment.

- Processing and production speed between the MAMMUT VMK and the MAMMUT MPS are synchronized. Alternatively, stand-alone service is possible.
- Upper thread and lower thread monitoring of all sewing machines.
- Manual or optional automatic width adjustment of the longitudinal sewing heads with the optimization of producing less waste.
- Longitudinal sewing units with two-needle-double chainstitch sewing machine and decoupleable cutting device.
- High quality PLC control along with a robust industrial computer with a color touch screen.
